We connect and protect

LHX+ Water Control Package

Data Solutions

The stainless steel pipe inserts with ID 1" each come with a pair of ratiometric liquid coolant sensors. The sensors connect directly to the RackChiller Rear Door Controller. This enables monitoring of the coolant thermal properties and cooling. performance, as well as additional temperature control features.

FEATURES

- Return sensors: coolant flow and temperatures
- Enables the controller to modulate the flow based on return temperature
- Water control unit with water flow, temperature sensor
- Both pipe inserts made of stainless steel which can be bolted to the base plate to ensure high EMC and IP
