TT-TS12 Alarm Panel

nVent RAYCHEM TraceTek TT-TS12 Touch Screen Panel provides a graphic user interface to manage and display information from a network of up to 250 external leak detection circuits. With interactive and dynamic leak location maps and displays, the leak location can be displayed on the floor plan, piping layout or photo of a single piece of equipment. Provides a quick status overview of all leak detection cables. Works with TTSIM or wireless mesh transmitters.

FEATURES

- Easy to install, simple to set up and operate
- Graphic display of leak location: 12" full color, high resolution SVGA touch screen display
- Flexible interface options: audible alarm, summary relays, serial data and web interfaces are provided as standard
- Onboard memory for up to 5000 events, simple off-line archiving and software updates
- Available in various configurations
- Email alerts allow 24/7 remote notification of an alarm
- CE and UL 508 compliant
