

# **Elexant 9200i Wireless Interface**

The nVent RAYCHEM Elexant 9200i is a Wireless Communications Interface that provides an alternative solution to hardwired remote communications. It provides a means of communications between nVent RAYCHEM Supervisory software and nVent Electric Heat Trace (EHT) controllers.

The Elexant 9200i creates opportunities to connect devices where previously thought impossible, can help to reduce overall project costs and effort, and comes in the form of standalone enclosures, or as an integration option for an EHT Control Panel. It is compatible with any nVent controller that includes an appropriate communications interface. In the absence of RAYCHEM Supervisory software, the 9200i can be integrated with a Touch1500.

nVent offers Design, Engineering, and Commissioning Services to provide a complete turn-key Solution. Please contact nVent for details.

# **FEATURES**

Three frequencies for global coverage: 868 MHz, 900 MHz, and 2.4 GHz

Multiple configurations based on Enclosure material, Radio frequency, Antenna type, and Antenna connection method

Multiple network topologies & modes available

Three Radio operating modes (Master, Slave, Repeater / Slave)

128 bit Advanced Encryption Standard (AES)

Self-Healing network

Long distance coverage

# **SPECIFICATIONS**

Max Communications I/O Wire Size:4 mm²Max Power Supply Input Wire Size:6 mm²Max Ground Terminal Wire Size:6 mm²

**Relative Humidity:** 20% to 85%, Noncondensing

**Supply Voltage:** 100 - 240 V **Communication Protocol:** Modbus RTU

**RS-485 Cable Type:** One 2-Wire, Shielded Twisted Pair

Communication: RS-485; Radio
Operating Temperature: -40 to 52 °C

# **ADDITIONAL PRODUCT DETAILS**

A minimum of two radio transceivers are required to establish a network.

Externally mountable Antenna packages are available and sold separately as accessories.

#### WARNING

nVent products shall be installed and used only as indicated in nVent's product instruction sheets and training materials. Instruction sheets are available at www.nvent.com and from your nVent customer service representative. Improper installation, misuse, misapplication or other failure to completely follow nVent's instructions and warnings may cause product malfunction, property damage, serious bodily injury and death and/or void your warranty.
