

Alarm Beacon sensors

Data Solutions

Alarm Beacon sensors are accessories attached to nVent Enlogic iPDUs, which are designed to create a visible alarm notification for an alert condition (or other userdefined situation) in an effort to notify IT personnel quickly and efficiently. They provide information via Web UI, SNMP, CLI/SSH interfaces.

FUNKTIONER

These devices produce visual alerts that direct users' attention to a designated area

The beacon is attached to an iPDU's sensor port 1 or port 2, and it flashes a red LED for 0.5 secs ON/0.5 secs OFF rhythmically until the issue is fixed or warnings are resolved

A standard RJ-45 connector may be used to extend the Alarm Beacon up to a distance of 30.5 meters

SPECIFIKATIONER

Table 1/2

Katalognummer	Dybde	Højde	Pakke mængde	Plug Type	Removable Input Cable	Vægt
EA9101	300mm	98mm	1	RJ45	No	0.5kg

Table 2/2

Katalognummer	Bredde
EA9101	100mm

YDERLIGERE PRODUKTOPLYSNINGER

Includes: (5) Cable Ties, (1) RJ45 Quick Disconnect Coupler, (5) Adhesive Backed Mounts, (1) 1.8m standard ethernet extension cable

ADVARSEL

nVent-produkter skal kun installeres og anvendes som angivet i nVents produktvejledninger og træningsmaterialer. Vejledninger er tilgængelige på www.nvent.com og hos din nVent kundeservicerepræsentant. Forkert installation, misbrug,

fejlanvendelse eller anden undladelse af fuldt ud at følge nVents instruktioner og advarsler kan medføre funktionsfejl, materielle skader, alvorlige personskader eller død og/eller ugyldiggøre din garanti.
