

End Seal, Heat Shrink

These end seal kits are designed for the termination of nVent RAYCHEM industrial heating cables. The end seal kit employs easy to use heat-shrinkable tubing with an adhesive, that when heated forms a semi-flexible moisture proof encapsulation. Due to the low profile design the finished termination can be installed directly on the pipe. One end seal kit is required for each termination.

FEATURES

- Simple and fast to install
- Small geometry, for installation under the insulation
- Reliable during long life, 10 year product warranty available, maintenance free

SPECIFICATIONS

- Connection Type:** Heat Shrinking Technique
- Model:** Heating Cable End Piece
