

EuropacPRO EMC Shielding Kit, Backplane to Side Panel

Vertical profile enables the EMC contact between the side panel and the backplane. The assembly grid is 30 mm.

CERTIFICERINGER

FUNKTIONER

For vertical contact the support profile may be fixed to the side panel of the subrack or case (depth grid 30 mm)

With some designs the backplane can be used as the shielding rear panel of the subrack; for this a rear horizontal rail (type L-VT or H-VT) for recessed installation is required to ensure horizontal contact
