

# WBT Performance Cable Tray Termination Support

The nVent CADDY WBT Performance Cable Tray Termination Support offers a versatile solution for securing the ends of wire basket trays to walls. This component is designed to either anchor the end of a cable tray run or serve as a blank end fitting, providing both structural integrity and simplistic closure.

The termination support fastens directly to a variety of surfaces—including wood, concrete, and stud walls—due to the predrilled holes that allow for easy alignment and quick mounting. Whether you're completing a tray run or preparing for future extensions, this termination support simplifies the process while maintaining high performance standards. Its flexibility and easy-to-use design make it a reliable component for efficient and safe cable

## **FEATURES**

Designed to be used with the nVent CADDY WBT Performance Cable Tray Splice Kit

Available in a range of widths to match wire basket tray design

Provides a solid bottom for the tray
