

# Mini Water Sensing Probe

nVent RAYCHEM TraceTek TT-MINI-PROBE is a low point leak detection probe, especially in double containment pipes, drip trays or sumps.

## FEATURES

Simple and fast to install

Chemical resistant: constructed from plastic and stainless steel materials to withstand exposure to a wide range of harsh chemicals

Compact

High sensitivity: will detect leaks with as little as 3 mm / 1/8" of the probe electrodes exposed to liquid

Flexible installation: installed in virtually any position to provide optimized leak sensitivity

## SPECIFICATIONS

Table 1/2

| Catalog Number | Item Name     | Housing Material | Min Water Depth to Trigger Leak | Length | Diameter | Weight  |
|----------------|---------------|------------------|---------------------------------|--------|----------|---------|
| P000000149     | TT-MINI-PROBE | Plastic          | 3 mm                            | 34 mm  | 16 mm    | 22.67 g |

Table 2/2

| Catalog Number | Item Name     | Ambient Temperature |
|----------------|---------------|---------------------|
| P000000149     | TT-MINI-PROBE | -18 to 90 °C        |

## WARNING

nVent products shall be installed and used only as indicated in nVent's product instruction sheets and training materials. Instruction sheets are available at [www.nvent.com](http://www.nvent.com) and from your nVent customer service representative. Improper installation, misuse, misapplication or other failure to completely follow nVent's instructions and warnings may cause

product malfunction, property damage, serious bodily injury and death and/or void your warranty.
