RayStat M2-G Ground Sensor for Temperature and Moisture

nVent RAYCHEM RAYSTAT-M2-G-SENSOR is a ground temperature and moisture sensor designed for embedding into the surface of the outdoor area. It is used with the RAYSTAT-M2 thermostat to ensure the heating system is only energized when the surface temperature is below the selected setting and snow or ice is present on the sensor.

FEATURES

Simple and fast to install

10 m pre-installed supply cable
