

Mini Water Sensing Probe

nVent RAYCHEM TraceTek TT-MINI-PROBE is a low point leak detection probe, especially in double containment pipes, drip trays or sumps.

FEATURES

Simple and fast to install

Chemical resistant: constructed from plastic and stainless steel materials to withstand exposure to a wide range of harsh chemicals

Compact

High sensitivity: will detect leaks with as little as 3 mm / 1/8" of the probe electrodes exposed to liquid

Flexible installation: installed in virtually any position to provide optimized leak sensitivity

SPECIFICATIONS

Table 1/2								
Catalog Number	Item Name	Housing Material	Min Water Depth to Trigger Leak	Length	Diameter	Weight		
P000000149	TT-MINI-PROBE	Plastic	3 mm	34 mm	16 mm	22.67 g		

Table 2/2						
Catalog Number	Item Name	Ambient Temperature				
P000000149	TT-MINI-PROBE	−18 to 90 °C				

WARNING

nVent products shall be installed and used only as indicated in nVent's product instruction sheets and training materials. Instruction sheets are available at www.nvent.com and from your nVent customer service representative. Improper installation, misuse, misapplication or other failure to completely follow nVent's instructions and warnings may cause

product malfunction, property damage, serious bodily injury and death and/or void your warranty.
