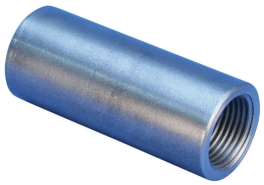
We connect and protect

A2 Standard Coupler, Stainless Steel



Stainless steel couplers are specified whenever corrosive environmental conditions combine with the need for high load-bearing strength. nVent LENTON stainless steel couplers are commonly used when the construction materials may come into contact with de-icing salts, salt water or marine environments. Typical applications include bridges and bridge decks.

FEATURES

- Designed to splice the same diameter bars where the second bar can be rotated and is not restricted in its axial direction
- Slim design maintains concrete cover
- Installs quickly and easily
- Duplex 2205 stainless steel provides a unique combination of strength and corrossion resistance

SPECIFICATIONS

ADDITIONAL PRODUCT DETAILS

Bar dimensions and weights listed may vary by region. Coupler sizes not shown may be available by special order. Contact your nVent LENTON representative for more information.
