

# T2Red and Reflecta Self-Regulating Floor Heating System

nVent RAYCHEM T2Red and Reflecta combines a self-regulating floor heating cable with perfect heat spreading and insulation boards. Suitable for new build and renovation, they can be applied under any type of floor surface without risk of overheating. Ideal for wooden and engineered wooden floors but also for natural stone and ceramic tiles.

## FEATURES

Energy efficient and self regulating: automatically adjusts heat output, more heat near windows, less heat under furnishings

Maximum comfort with T2Reflecta insulation board: heat spreads perfectly over the entire room

Simple, fast installation: cut-to-length, no cold leads, If combined with Reflecta then pre-grooves serve as cable fixing tool and guarantee perfect cable distance of 100-200 or 300mm spacing, suitable for all sub-floors and floor coverings, meter markings, user-friendly connections kits

Safe and efficient operation: fast heat up, uniform temperatures across the room, flexible power output from 35-100W/m<sup>2</sup>, closer loops for higher output and wider loops for lower output, no overheating

Reliable during long life: 12 to 20 year total care warranty available, no maintenance required

Advanced control options available

## SPECIFICATIONS

Table 1/4

| Catalog Number | Item Name | E-Number   | Heating Cable Technology | Nominal Voltage | Power Ouput | Power Output, Typical     |
|----------------|-----------|------------|--------------------------|-----------------|-------------|---------------------------|
| 948739-000     | T2-RED    | 9935001230 | Self-Regulating          | 230 V           | 5 – 15 W/m  | 80 – 125 W/m <sup>2</sup> |
