

TTA-SIM-2 Alarm Module

nVent RAYCHEM TraceTek TTA-SIM-2 is a simplified alarm panel for small area leak detection systems, available in 120 or 230 V. Up to 150 m (500 ft) of sensor cable can be monitored by the unit. It indicates the leak with an LED and audible alarm, and switches a relay to provide local volt free contact closure. The leak location is displayed on a built-in LCD readout. The TTA-SIM can be installed in networks with other nVent RAYCHEM TraceTek controllers, or connected to a host monitoring system.

FEATURES

Simple to install and operate

Rugged polycarbonate enclosure for tough environments

60 dB audible alarm with silence button

LEDs to indicate power, leak, cable trouble and communication status

Volt-free contacts for alarm signaling

SPECIFICATIONS

NEMA Rating: 1 Indoor, electrical protection

Depth:100 mmHeight:120 mmMax Length of Sensing Cable metric:150 mWidth:240 mmOperating Temperature:0 - 50 °CIP Rating:IP20Display:LCD

Relay Contacts: SPDT, Form C

Table 1/1		
Catalog Number	Item Name	Supply Voltage
P000000155	TTA-SIM-2-120	96 – 132 V
P000000156	TTA-SIM-2-230	216 – 253 V

WARNING

nVent products shall be installed and used only as indicated in nVent's product instruction sheets and training materials. Instruction sheets are available at www.nvent.com and from your nVent customer service representative. Improper installation, misuse, misapplication or other failure to completely follow nVent's instructions and warnings may cause product malfunction, property damage, serious bodily injury and death and/or void your warranty.
