

# Metal Spacer for Cables

nVent RAYCHEM HARD-SPACER-SS-25MM-25M is a stainless steel prepunched strap that can be used with all heating cables, typically used on large pipes or vessels to simplify installation of heating cables and keep permanently in place.

## FEATURES

- Recommended solution when installing heat tracing on vessels
- Simple and easy way to permanently position heat tracing cables with an even spacing
- Can be used with all heat tracing cable types: self-regulating, polymer insulated, mineral insulated
- Stainless steel 316 for high corrosion resistance
