

# LENTON Interlok Bolted Form Mount

The nVent LENTON Interlok Bolted Form Mount is designed for use with nVent LENTON Interlok Grommet. These kits/bolts are used to secure nVent LENTON Interlok Grout-Fill Coupler variants in repeatable locations in the formwork. Once a Grout-Fill Coupler is placed over a Grommet, the Bolted Form Mount is tightened, which expands the Grommet, thus holding the Grout-Fill Coupler in place.
