

LHX+ Water Control Package

Data Solutions

The stainless steel pipe inserts with ID 1" each come with a pair of ratiometric liquid coolant sensors. The sensors connect directly to the RackChiller Rear Door Controller. This enables monitoring of the coolant thermal properties and cooling performance, as well as additional temperature control features.

FEATURES

Return sensors: coolant flow and temperatures

Enables the controller to modulate the flow based on return temperature

Water control unit with water flow, temperature sensor

Both pipe inserts made of stainless steel which can be bolted to the base plate to ensure high EMC and IP
