

Swing-Out Panel Kit for Junction Box and Wall-Mount Enclosure

Swing-Out Panel Kits allow mounting standard junction box and NEMA style panels (purchase separately) near the front of the enclosure for easy access to or reading of gauges, switches, pilot lights and other components. Kit consist of heavy-gauge brackets and hinges which are easily installed by drilling small holes in the sides of the enclosure and bolting the brackets in place.

FEATURES

External screws are stainless steel

internal components are plated steel

All mounting hardware and instructions are provided

Both Kits maintain UL Type 4 rating when properly installed in a Hoffman enclosure

Swing-Out Panel Kits do not fit single-door disconnect enclosures
