

# Above-Rail Drill Machine Clamping Device

## FEATURES

Properly and safely positions and secures the Rail Drill Machine over the rail profile

Works on both normal and grooved rail profiles

Suitable for all types of nVent ERICO Rail Drill Machines

## SPECIFICATIONS

Table 1/1

| Catalog Number | Article Number | Rail Type | Unit Weight |
|----------------|----------------|-----------|-------------|
| BSK1           | 715360         | T-Rail    | 3 kg        |
| BSK2           | 715370         | Grooved   | 4 kg        |

## ADDITIONAL PRODUCT DETAILS

To position the rail drill machine on the rail, rail clamping devices and rail profile templates are needed, which must be ordered separately.

## WARNING

nVent products shall be installed and used only as indicated in nVent's product instruction sheets and training materials. Instruction sheets are available at [www.nvent.com](http://www.nvent.com) and from your nVent customer service representative. Improper installation, misuse, misapplication or other failure to completely follow nVent's instructions and warnings may cause product malfunction, property damage, serious bodily injury and death and/or void your warranty.
