InterSafe Data Interface Port Disk Drive Enclosure

This enclosure, available in both steel and stainless steel, allows access to one or two customer-supplied disk drives from outside the cabinet, allowing computer system use and updates without opening the cabinet. Steel version is rated Type 4 and 12 and Stainless Steel is rated Type 4, 4X, and 12.

FEATURES

Steel and Stainless Steel doors are welded and ground

Door gasket (between the door and plate assemblies) and plate gasket (between the plate assembly and the enclosure) together provide a tight seal

Template provided for accurate enclosure cutout dimensions

Quarter-turn latch with screwdriver slot and padlock hasp on all steel and stainless steel door models for convenience and security
