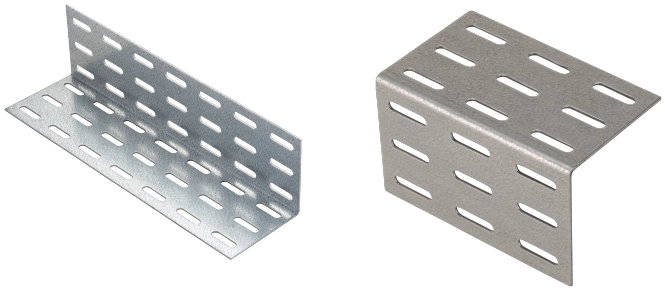
We connect and protect

WBT Performance Cable Tray Termination Support



The nVent CADDY WBT Performance Cable Tray Termination Support offers a versatile solution for securing the ends of wire basket trays to walls. This component is designed to either anchor the end of a cable tray run or serve as a blank end fitting, providing both structural integrity and simplistic closure.

The termination support fastens directly to a variety of surfaces—including wood, concrete, and stud walls—due to the pre-drilled holes that allow for easy alignment and quick mounting. Whether you're completing a tray run or preparing for future extensions, this termination support simplifies the process while maintaining high performance standards. Its flexibility and easy-to-use design make it a reliable component for efficient and safe cable

FEATURES

- Designed to be used with the nVent CADDY WBT Performance Cable Tray Splice Kit
- Available in a range of widths to match wire basket tray design
- Provides a solid bottom for the tray

SPECIFICATIONS

WARNING

nVent products shall be installed and used only as indicated in nVent's product instruction sheets and training materials. Instruction sheets are available at www.nvent.com and from your nVent customer service representative. Improper installation, misuse, misapplication or other failure to completely follow nVent's instructions and warnings may cause product malfunction, property damage, serious bodily injury and death and/or void your warranty.
