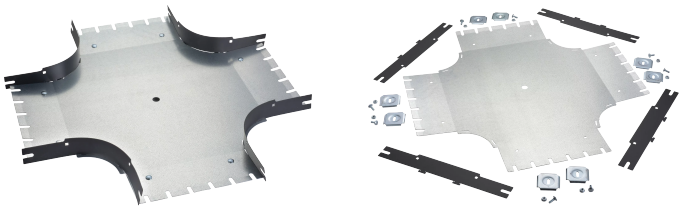
We connect and protect

WBT Performance Cable Tray PreForm Intersection



The nVent CADDY WBT Performance Cable Tray PreForm Intersection is a precision-engineered solution designed to streamline cable tray installations at multi-pathway junctions. With its pre-galvanized steel base and interlocking polymer sidewalls, the PreForm Intersection delivers a clean, consistent, and tool-free installation experience.

Additionally, the PreForm Intersection significantly reduces installation time by eliminating the need for field cutting or job site configuration. This translates into improved productivity and increased efficiency, especially in retrofit scenarios where flexibility is critical.

FEATURES

- Multiple color options to coordinate with cable tray selection
- Flame-retardant polymer rails ensure the safety of high-performance cabling
- Routes cable systems in multiple directions
- Provides a clean bend radius and helps to protect the natural bend radius of varying cable systems
