

Metal Spacer for Cables

nVent RAYCHEM HARD-SPACER-SS-25MM-25M is a stainless steel prepunched strap that can be used with all heating cables, typically used on large pipes or vessels to simplify installation of heating cables and keep permanently in place.

FEATURES

- Recommended solution when installing heat tracing on vessels
- Simple and easy way to permanently position heat tracing cables with an even spacing
- Can be used with all heat tracing cable types: self-regulating, polymer insulated, mineral insulated
- Stainless steel 316 for high corrosion resistance
