

# T-Series Horizontal Sleeve, Side Fill

The side fill horizontal T-Series sleeve has vent holes located 90 degrees from the tap hole to facilitate side fill installations when the interferences of the structure will not allow top filling. Vent holes are added to horizontal sleeves to reduce air entrapment and help ensure proper filling of the sleeve.

## FEATURES

Designed to connect horizontal reinforcing bars and angular reinforcing bars up to 45 degrees

Used to splice the same diameter bars

Works with saw cut, flame cut and sheared bars

Can be visually inspected after installation

Available with extended sleeve lengths

## SPECIFICATIONS

**Finish:** Plain

**Material:** Steel

**100% U.S. Domestic Content:** Yes
