

# RackChiller Rear Door Control Unit, Passive

# **Data Solutions**

#### **CATALOG NUMBER**

23130-594

The Control Unit enriches the passive RackChiller Rear Door. It connects to the 4 built-in air temperature sensors and the motorized coolant valve 23130-607. This enables the cooler to control the coolant air flow based on a chilled (supply) air temperature setpoint. It provides advanced remote monitoring functionality and various setup features.

#### **CERTIFICATIONS**

# **FEATURES**

Coolant flow control based on chilled (supply) air temperature setpoint. More control features with water control package 21130-608

Precise flow control against setpoint with parametric PID loop

Remote monitoring through built-in Web Server or BMS protocols (Modbus TCP, SNMP v2c)

Optional external disply and keypad 21130-599

Languages: English, German, French

Power Supply: 90 - 260 VAC

#### PRODUCT ATTRIBUTES

Product Type: Control Unit

Color: Black Grey

Gross Weight: 2.369kg

# **ADDITIONAL PRODUCT DETAILS**

For trouble-free operation it is recommended to use the water connection set and the optional accessories.
