

TT5000 Fuel Sensing Cable, Modular

nVent RAYCHEM TraceTek TT5000-XX-MC are a range of fixed length modular liquid hydrocarbon fuel sensing leak detection cables with metal connectors, used for detection and location of spills of gasoline, jet fuel, diesel, crude oil and similar hydrocarbon liquids. They will not detect or react to water. Installed with an alarm and locating module, the cable detects hydrocarbon fuel leaks, triggers an alarm and pinpoints the location.

FEATURES

Advanced technology: radiation crosslinking and conductive polymer technology, mechanically strong and resistant to chemicals

Simple and fast to install: small, lightweight and flexible

Easy to design

Distributed leak detection and location over a wide range of areas

Reliable during long life: 5 year product warranty available

SPECIFICATIONS

Outer Diameter:7 mmMax Operating Temperature:60 °CDetection:Fuel

Detection Method: Raychem Conductive-Polymer Technology

Model: Sensing Cable
