

# Cadweld Rail Track Connector Bond Kit, Single-Leg

The Cadweld Rail Track Connector Bond Kit, Single-Leg, is intended to be welded to the web of the rail at the neutral axis as a single-leg connection. The kit has all the necessary components to establish a welded bond connection to the web of the rail. This technique guarantees connection reliability and consistent electrical resistance, using nVent ERICO Cadweld welding material. The bond is designed to be welded at the rail profile neutral axis level, where the stress and strain are minimal.

## **FEATURES**

Provides unchanging electrical resistance

Superior corrosion resistance

Easy installation, with minimum installer training required

Simple and highly-portable installation equipment

Equally usable on old, worn, or new rails

Available as bond-only or incorporated in a Bond Kit including all necessary parts to ensure easy handling at jobsite

# **SPECIFICATIONS**

Handle Clamp:C105B x 2, Sold SeparatelyMaterial:Cadmium Bronze;Copper AlloyFinish:Electrogalvanized;Tinned
