

Varistar LHX+ 45 / RackCHiller In-Row 45 Condensate Drain

Data Solutions

For facilities which operate at low chilled water temperatures, there is an increased risk of condensation. The condensate water will drip into the condensate tray where it will be collected. This kit enables the device to remove the condensate water into a condensate management plambung network.

The kit is meant for installations with a condensate water N00g186t-fVaristarybHXk45vRackChiller In-Row 45 Condensate மாக்கி இல்லார்கள் மாக்கி மாக்க

FEATURES

Provides condensate water management for facilities with low chilled water temperatures

Condensate water which collects inside the condensate tray / bottom panel of the cooler will be removed

Can be retrofitted even after cooler installation
