

# ProLine CableTek Reducing Brackets

## Data Solutions

The ProLine CableTek Reducing Brackets separate, support and manage cable inside ProLine cabinets. The bracket mounts on either the left or right side of 700- and 800-mm cabinets between the frame and the rack angle to create vertical wiring space. The fingers are made of a molded black plastic. Please note the mounting hardware is included.

NOTE: Refer to the table to calculate the number of reducing brackets required.
