

Electric Vehicle Inverter, Free-Stand Enclosure

This series of Type 3R rated electrical enclosures has been designed specifically for the housing of Electric Vehicle (EV) Inverters that feed power to charging stations. To support EV Infrastructure projects and qualify for designated funding, these enclosures are made in the USA with US steel. The enclosures feature a robust and reliable unibody construction with flexible internal mounting capable of supporting heavy loads. Available standard in a number of door access configurations to suit application requirements.

INDUSTRY STANDARDS

UL 508A Listed; Type 3R; File No. E61997

cUL Listed per CSA C22.2 No. 94; Type 3R; File No. E61997

NEMA/EEMAC Type 3R

FEATURES

Made in the USA with US steel

Unibody design for high weight-load requirements and environmental protection assurances

Open bottom plinth base for easy field installation

Lifting eyes (quantity 4 per enclosure) for ease-of handling and transportation

3-point latches operated by oil-tight lockable handle for tamper resistance

Water trough over door to prevent water ingress

Concealed, easy-to-remove stainless steel hinges for simplified door removal and installation

Optional panels and rack mounting angles can be mounted anywhere along channels for enhanced mounting flexibility (sold separately)

Provisions for mounting LED Lights with occupancy/vacancy sensors

Anti-corrosive paint and protective coating to maximize life even in tough weather environments

SPECIFICATIONS

Finish: Powder Coated
Material: Steel
Color: White
