

Elbow 45-Degree Lay-in Hinged-Cover

Lay-in Hinged-Cover 45-Degree Elbows are used for continuous wireway runs with 45-degree turns. Because sections of lay-in wireway can be mounted with covers oriented in any direction, three different 45-degree elbows are available. Proper selection allows the user to maintain the same access and thereby preserve the lay-in feature for right-angle installations.

INDUSTRY STANDARDS

Certified by Canadian Standards Association.

FEATURES

Lay-in Hinged-Cover 45-Degree Elbows are used for continuous wireway runs with 45-degree turns

Because sections of lay-in wireway can be mounted with covers oriented in any direction, three different 45-degree elbows are available

Proper selection allows the user to maintain the same access and thereby preserve the lay-in feature for right-angle installations

SPECIFICATIONS
