

T2Black Cable Guides

The nVent RAYCHEM Cable Guides are designed to be glued, stapled, screwed or nailed to the subfloor. Once in place, the Cable Guides are helping spacing the T2Black cable evenly over the entire floor surface. Additional cable Guides can then be installed (every 500mm) to lock the T2Black cable in space and make sure the cable is not floating while pouring the self-levelling compound over the installation.

FEATURES

Eases up installation of T2Black cable

Equal spacing over the entire floor construction

Lock the cable to avoid floating during pouring of the self-levelling compound

Easy to go around obstacles

SPECIFICATIONS

Table 1/1

Catalog Number	Item Name	Color	Length	Material	Thickness	Width
1244-022788	T2BLACK CABLE GUIDES 12 PCS	Red	315.7 mm	Polypropylene	5.16 mm	17.78 mm

WARNING

nVent products shall be installed and used only as indicated in nVent's product instruction sheets and training materials. Instruction sheets are available at www.nvent.com and from your nVent customer service representative. Improper installation, misuse, misapplication or other failure to completely follow nVent's instructions and warnings may cause product malfunction, property damage, serious bodily injury and death and/or void your warranty.
