

# **Signal Reference Grid**

# **CERTIFICATIONS**

#### **FEATURES**

Provides a low impedance equipotential plane to protect sensitive electronic equipment from transient noise

Pre-engineered welded grid of 26 gauge copper strips reduces voltage differences between interconnected electronic equipment

Welded connections do not deteriorate, corrode or loosen with time

Can be easily field-welded to suit any size computer room

Complies with IEEE® Standard 1100-1992

# **SPECIFICATIONS**

Material: Copper
