We connect and protect

CableRack

Data Solutions

CableRack is used for ladder or basket tray mounting and securing 19-inch rack equipment for Data centers, Telecommunication rooms and other locations. The fixed, open frame rack allows suspending 19-inch rack equipment from Ladder Rack or Basket Tray. The rack has universal tapped holes per industry standards to accommodate typical applications. These open frame racks are ideal for high-density cabling applications which require above-the-cabinet mounting of equipment, and provide maximum access to cables and equipment. CableRack is ideal for Data Center applications, expanding equipment to above-the-cabinet while providing increased equipment and cable densities.

INDUSTRY STANDARDS

UL 2416 Listed; File Number E230874

Rated to 60 lbs. with a 4X safety factor

FEATURES

Designed to accommodate all standard 19-inch rack equipment
Easy, single-tool assembly reduces installation time and cost
Preassembled for fast, time-saving installation
Securely mounts to either Cable Runway (Ladder Rack) or Basket Tray
UL double lug ground holes provide easy adherence to local bonding and grounding codes
Cable tie down points, sized for up to 1-inch Velcro® straps, provided in horizontal and vertical positions in multiple locations
Parallel or perpendicular mounting to cable pathway
Multi-point mounting provisions address various application needs
Open design provides for maximum access to cables and equipment
Smart packaging with hand-carrying holes allow for easy transportation
