

Syspend Monitor and Keyboard Arm

Syspend Monitor and Keyboard Arm is a heavy-duty but fully adjustable pendant arm system for mounting a flat screen monitor, keyboard and mouse in industrial environments. Display and keyboard can be raised and lowered with one hand. The system is rotatable at the mounting end and the display end to provide optimal operating position. It opens up plant floor space by locating the display where it is convenient for the operator. Keyboard folds up when not in use.

FEATURES

Supports 6-15 lb. loads with an internal gas spring counterbalance

"Provides 12"" of vertical height adjustment"

Toggle lever locks arm in place when repositioned vertically

"3 x 3"" and 4 x-4"" VESA mounting pattern fits most flat screen monitors"

Arm swivels 340 degrees at display end and 180 degrees at mounting end

Display tilts forward 15 degrees and back 45 degrees to reduce glare

"Folds up within 7"" of the wall"

Display and keyboard stay level as they travel vertically

Side cable manager protects cables and cords from pulling or chafing

Easily installs on a wall or vertical surface

VELCRO® included to affix keyboard to mounting surface (VELCRO is a trademark of Velcro Industries B.V.)

Monitor, keyboard and mouse are not included
