# nVent LENTON Quick Wedge Pin Driver

The nVent LENTON Quick Wedge Pin Driver is used to mechanically drive the wedge pin through a pre-drilled hole in the nVent LENTON Quick Wedge couplers. The pin driver is supplied with all of the tooling necessary to splice each bar size. It is powered by a high-pressure hydraulic pump and has the capability of producing 20 tons of force.

## FEATURES

- Simple design allows quick changes between bar sizes
- Designed to withstand the forces required for assembly
- Designed to work with a standard hydraulic pump

## SPECIFICATIONS

Table 1/1

| Catalog Number | Article Number | Unit Weight |
|---|---|---|
| ML500 | 145890 | 23.36 kg |

## ADDITIONAL PRODUCT DETAILS

Prior to installation, please read and understand the detailed instructions and safety notices provided in the nVent LENTON Quick Wedge Operator's Manual.

Under no circumstances should the pin driver be used for anything other than the nVent LENTON Quick Wedge lap splicing system.

Hydraulic pump sold separately.

## WARNING

nVent products shall be installed and used only as indicated in nVent's product instruction sheets and training materials. Instruction sheets are available at www.nvent.com and from your nVent customer service representative. Improper installation, misuse, misapplication or other failure to completely follow nVent's instructions and warnings may cause product malfunction, property damage, serious bodily injury and death and/or void your warranty.
