

# LHX+ Air/Liquid Heat Exchanger

## Data Solutions

RackChiller In-Row Coolers (IRC) are designed to deliver localized/supplemental energy efficient cooling in data centers. RackChiller IRC is a modular and scalable precision cooling solution that can replace or supplement traditional data center cooling infrastructure.

### FEATURES

19" mountable Air/liquid heat exchanger with fan

Easy replaceable fans without dismounting the heat exchanger

Coolant feed from top or bottom

### SPECIFICATIONS

|                           |                           |
|---------------------------|---------------------------|
| <b>Depth:</b>             | 500mm                     |
| <b>Product Type:</b>      | Air/Liquid Heat Exchanger |
| <b>Airflow Direction:</b> | Front to Top              |

Table 1/2

| Catalog Number | Fan Quantity | Input Voltage AC | Package Quantity | Supply Voltage | Redundant Power Supply | Coolant Feed |
|----------------|--------------|------------------|------------------|----------------|------------------------|--------------|
| 29714-017      | 1            | 100 – 240V       | 1                | 230V min       | No                     | Bottom       |
| 29714-016      | 2            | 100 – 240V       | 1                | 230V min       | No                     | Bottom       |
