

Stainless Lid, MPLS

A stainless steel lid for a mild steel desk is a cost effective alternative to a complete stainless steel desk within certain environments. For example, a mild steel lid would deteriorate quickly if operators are exposed to chemical agents and transfer them onto it during operations and maintenance.

FEATURES

Description: For replacing the standard lid on MPC desk units or MPG consoles where high corrosion resistance is required.

Material: 2 mm AISI 304 pre-grained stainless steel.

Finish: 400 pre-grained stainless steel.

SPECIFICATIONS

Thickness: 2mm
Finish: Brushed
Material: Stainless Steel 304
