

Flat Rigid Box Support

The nVent CADDY FB16 Flat Rigid Box Support is rigid and completely flat with no offset, providing flexibility and strength within the stud wall. Regardless of the mud ring combination you're planning for, the FB16 bracket is able to accommodate and provide a mounting option. Because it is designed completely flat, you have multiple configuration options, limiting SKUs needed on a job, saving time. As part of the comprehensive line of nVent CADDY In-Wall products, the FB16 bracket delivers versatility and efficiency.

CERTIFICATIONS

FEATURES

Created from one single piece of steel with no offset resulting in a completely flat bracket

Accepts any mud ring shape in either vertical or horizontal orientation

Extruded holes allow mounting of mud rings for both power and data applications

Stamped with A- and B-side markings that allow mounting for all box types and configurations – no need for removal of screws – simply flip and it's ready to use
