

# nVent CADDY Telescoping Screw Gun Box Bracket Between Stud Assembly

The nVent CADDY Telescoping Screw Gun Box Bracket Between Stud Assembly is a quick and secure method for fastening electric boxes to in-wall studs. This versatile and robust support system requires only a screw gun to install and significantly decreases the required time for attachment. In addition, the nVent CADDY Glider Electrical Box Attachment is conveniently included in this assembly, allowing installers to easily reposition electrical boxes and provide a means for closer installation between or against studs.

## FEATURES

Assembly includes one of each: telescoping bracket, electrical box with optional mud rings, nVent CADDY Glider Electrical Box Attachment

nVent CADDY Glider Electrical Box Attachment allows for easy repositioning of electrical boxes along bracket

Can be mounted inside or facing the stud

Adjustable for non-standard spacing
