

# Stub Down, PVC

The nVent CADDY Reinforced Conduit Stub Down (RSD) is a fast and secure method to install PVC to concrete formwork. Designed to guard against damage and prevent loss of raceways during a concrete pour, the RSD series eliminates the need for additional support during installation. Achieve confidence on-the-job knowing your conduit layout will remain in its desired configuration after the concrete deck is finished.

## FEATURES

Integrated reinforcing stand - resists up to 200lbs of force

Generous radius for ease of wire pull - 50% less force required

Threaded opening designed for standard fittings

No fish tape hang ups

## SPECIFICATIONS
