

Service Entrance Suppressor, 320 Mounting Kit

The nVent ERICO SES Mounting Bracket is an accessory for SES surge products designed to deliver a secure solution for wall installations. The bracket consists of two sturdy metal components and four screws, ensuring a steadfast attachment to the SES device. It has a design that showcases the device prominently while also keeping an ideal distance between the device and the wall, improving visibility and accessibility. It is the ideal choice for installations where a recessed wall hole is not available, or a more visible device display is desired.

FEATURES

Precision-engineered for secure wall mounting of SES surge products

Comprised of robust metal components for a reliable device attachment

Compatible with all SES surge product voltages, enhancing device visibility and accessibility
