

Flush Mounting Plate Fixing Brackets, MPEF

This reinforcement bracket for fitting in the most rear position makes the mounting plate more rigid, which reduces any vibrations, and makes it possible to hold more weight.

FEATURES

Description: For extra fixing of a heavily equipped mounting plate in the far rear position. Mounted directly to the enclosure frame for extra stability. Easy mounting without drilling. Can be fixed from the front even after the mounting plate is already in position. The combination with an MPR profile is advised.

Material: 3 mm zinc plated steel.

Pack quantity: 10 pieces with mounting accessories.
