

# InterSafe Data Interface Port Disk Drive Enclosure

This enclosure, available in both steel and stainless steel, allows access to one or two customer-supplied disk drives from outside the cabinet, allowing computer system use and updates without opening the cabinet. Steel version is rated Type 4 and 12 and Stainless Steel is rated Type 4, 4X, and 12.

## FEATURES

Steel and Stainless Steel doors are welded and ground

Door gasket (between the door and plate assemblies) and plate gasket (between the plate assembly and the enclosure) together provide a tight seal

Template provided for accurate enclosure cutout dimensions

Quarter-turn latch with screwdriver slot and padlock hasp on all steel and stainless steel door models for convenience and security
