

ProLine G2 Top Mounting Module

The Top Mounting Module installs to the top of an enclosure providing space for cable management, and facilitating cable passage into the enclosure from above. The module is constructed from a mini ProLine frame, and as such is joinable to accommodate multi-bay solutions. Removable covers are supplied with the module for sealing purposes, while the standard Solid Top (sold separately or included with Industrial Package) is used to enclose the solution as it is mounted to the top of the module.

INDUSTRY STANDARDS

NEMA Type 12 environmental rating

FEATURES

Solution includes frame, width and depth mounted covers, gaskets for sealing junction between top of frame and module, and all installation hardware to secure to the top of a G2 frame

Solid Top sold separately, but also included with standard Industrial Package

200mm and 300mm heights available

Includes single ground stud per cover
