

Short External Baying Brackets, CCEH

Enclosures with partial doors can be bayed easily, resulting in proper alignment, without consuming space inside the enclosure and requiring additional external fixation holes.

FEATURES

Description: Short brackets mounted on the outside hole pattern of the frame of the bayed enclosures with an "auto spacer" function. Specially designed for small doors/panels configuration. This method of baying mild steel enclosures has also the advantage of creating a direct earthing connection between the enclosure frames.

Material: 3 mm zinc plated steel.

Pack quantity: 6 brackets with mounting material.
