

Support Bracket for ProLine Sloped-Front HMI Enclosure

A Support Bracket is required when suspending a 600-mm wide ProLine Sloped-Front HMI Enclosure from above. The rigid bracket mounts inside the enclosure to stiffen its top. It can also be used inside a base for ProLine Sloped-Front HMI Enclosure when mounting from below. Bracket has prepunched holes to fit Compact Series 4 System 80 Flange Couplings as well as Swivel Tilts. Bracket is used as a template to drill holes in the enclosure.

FEATURES

Bracket is furnished with mounting bolts and seals
