

## **Elexant 3500i Electronic Thermostat**

The Raychem Elexant 3500i is a family of compact, full-featured, electronic thermostats for heat tracing control and monitoring in freeze protection and process temperature applications. Designed from a common hardware platform, the Elexant 3500i offers multiple variants with different features to allow the user flexibility in tailoring their heat tracing needs. Available features include: alarm relay, RS-485 and Bluetooth connections, load sensing, ground fault detection, automated heat trace system check, mobile application for wireless configuration, and more. The Elexant 3500i is suitable for hazardous and nonhazardous locations, and can be wall mounted or pipe mounted.

## **FEATURES**

Multiple variants to allow flexibility for different heat-tracing requirements

Options including dry contact alarm relay, RS-485 and Bluetooth communications, load current detection, ground fault detection and trip, as well as the ability to configure as a thermostat or limiter

Power Connection and Thermostat in one kit

250k cycle endurance for long life

Approved for up to 32A and 277Vac

Suitable for extreme environments with an ambient operating temperature from -55°C to 60°C

## **SPECIFICATIONS**

Depth:3.6 inNEMA Rating:4XWidth:8.1 in

32A @ 40°C, derated to 28A @ 50°C and 24A @ 60°C ambient operating

temperature

**Control Max Voltage:** 277 VAC Nominal, 50/60Hz

Max Power Supply Input Wire Size:#5Max Ground Terminal Wire Size:#5Max Heating Cable Output Wire Size:#5

**Relative Humidity:** 0% to 90%, Noncondensating

IP Rating: IP66

Control Algorithms: On/Off, Always On, Always Off

Hazardous Area: Yes

**Intrinsically Safe Barriers on RTD** 

**Control Max Current:** 

Inputs:

Yes

Temperature Control Range: -67 to 1022 °F

Operating Temperature: -67 to 140 °F

Temperature Alarm: -76 to 1112 °F
