

RIM-LPE Low Pitch Eave Panel

nVent RAYCHEM RIM-LPE Low-Pitch Eave panels are specifically designed for integration with metal roof systems and for applications involving roof pitches of 3:12 or less; with self-regulating heating cables embedded in a specially designed base that directs most of the heat to the top surface for maximum efficiency. The base and heating cable are covered with a cover panel that transfers heat along the continuous edge of the roof. The cover panels are available in variety of colors to match the roof material.

FEATURES

- Prevents ice dam and icicle problems in low pitch eaves, avoids consequential roof damage
- An aesthetically attractive solution, with no visible cables, various colors and finishes
- Simple to install and operate
- Energy efficient, self-regulating heating cable plus advanced UL and CSA Certified control systems
- Reliable during long life: 20 year product warranty available
- Maintenance free

SPECIFICATIONS

- Heating Capacity:** 24 W/ft
- Cable Type:** Self-Regulating
