

RIM2 Roof Ice Melt System

RIM2 system consists of RIM2 panels that use lower wattage self-regulating cable providing energy efficient solution for moderate snow load areas. RIM2-Eave panels embed 2 runs of self-regulating heating cable providing sufficient power output required for moderate snow load areas. RIM2 system includes panels specifically designed for eaves, valleys, channels, rakes and flat roof sections.

FEATURES

High performing, aesthetically elegant roof de-icing solution

For all building types

Mechanical cable protection

Available in various colors

Standard and custom options

Advanced control options

Suitable for moderate snow load area

SPECIFICATIONS

WARNING

nVent products shall be installed and used only as indicated in nVent's product instruction sheets and training materials. Instruction sheets are available at www.nvent.com and from your nVent customer service representative. Improper installation, misuse, misapplication or other failure to completely follow nVent's instructions and warnings may cause product malfunction, property damage, serious bodily injury and death and/or void your warranty.
