

PFP Self-Regulating Heating Cable

nVent RAYCHEM WinterGard H312/H322 heat trace cable is a professional-grade, self-regulating electrical cable that can be used for pipe freeze protection on small pipes. The heating cable is constructed of nickel-copper bus wires, a self-regulating conductive core, an insulating jacket and a tinned-copper braid.

FEATURES

Cut to length

Can be overlapped

SPECIFICATIONS

Nominal Height: 6 mm
Nominal Width: 11 mm
Max Continuous Exposure Temperature, Power On: 65 °C
Min Installation Temperature: -18 °C
Color: Black

Outer Jacket Material: Modified Polyolefin

Table 1/1				
Catalog Number	Item Name	Nominal Voltage	Nominal Power Output @ 5°C, 220V	Max Circuit Length
P000001176	H322	200 V	9 W/m	150 m
P000001175	H312	100 V	9 W/m	75 m

WARNING

nVent products shall be installed and used only as indicated in nVent's product instruction sheets and training materials. Instruction sheets are available at www.nvent.com and from your nVent customer service representative. Improper installation, misuse, misapplication or other failure to completely follow nVent's instructions and warnings may cause product malfunction, property damage, serious bodily injury and death and/or void your warranty.
